

Nova Blanche Forman Elementary School Launches Box Tops Fundraiser

We're Collecting Box Tops!

Last year Nova Blanche Forman Elementary School collected more than \$1500 in Box Tops. This year we continue strong...families have already collected more than \$400. We have set a goal of earning \$5000 through Box Tops to purchase items that the school may need.

History

Box Tops for Education is a school fundraising program started by General Mills in 1996. Box Tops has helped America's schools raise over \$300 million to buy things they need but can't always afford, such as library books, school supplies and playground equipment. Every school can earn a total of up to \$20,000 each year.
